Invite takers to join

Who might want to come along?

Who are your takers?

Who might find your work useful?

Can you subdivide each group?

Are there geographic differences?

Understand your takers

Put yourself in their shoes...

...Where do they get their information?

...What is their preferred form of communication?

...What are their goals and priorities right now?

...What are their challenges and frustrations?

...*Why would they care about your product?*

Workbook time

Exercise C: Invite takers to join - part I

Please fill in the first two columns:

- List your main products.
- List the main takers for each product.

Know & engage with takers

GROUP WORK

Circular procurement
Five scaling opportunities

FIVE SCALING OPPORTUNITIES FOR CIRCULAR PROCUREMENT

**#3: Incentivise
the MARKET to
develop circular
business models
and solutions**

For circular procurement to reach scale, the market needs to be ready to supply circular products and services. This can be done by creating a demand that triggers the market to develop new offers. Procuring organisations can stimulate the development of circular market capacity beyond individual procurements by aligning on strategic ambitions for circularity in specific sectors. Another way to strengthen the incentives for the market to offer circular options is to move away from a focus on the lowest price.

Mandatory life-cycle costing (LCC) methods to determine the Most Economically Advantageous Tender (MEAT) are a good option for this. LCC allows for fairer competition for circular suppliers which may have a more expensive end product. Finally, for specific material loops, investments in research and development of circular technologies are still required to increase the capacities of the market to deliver circular solutions.

Put effective financial instruments in place to give circular suppliers a fair chance.

Building hydrogen competencies

Convince your takers

GROUP WORK

1. Note down one product and its top taker group.
2. Place the paper in the hat for a lottery draw.
3. The person behind the selected paper (giver) will try to convince the table facilitator ("fake taker") to adopt their product.
4. The rest of the group helps to win over the taker.

Help your takers

INDIVIDUAL WORK

- What are the main stumbling blocks for others to take up your work?
- How can you help them get past the hurdles?

Workbook time

Exercise D: Lead the way

- Consider your key 1-3 takers.
- What are the key points to convince them to about your work? How would you present these points?
How can you help takers overcome barriers?
- List the actions you could take.

Coffee pit stop

BUILD YOUR CREW
