

# Hydrogen ecosystem for logistics actors in West Sweden

The pilot aims to prepare logistics actors in West Sweden for hydrogen heavy-duty vehicles through fostering sector coupling, organizing knowledge exchange seminars, and advancing hydrogen production. We also gather insights on policy instruments that can accelerate development.

## Key Actions Enabling the West Sweden Hydrogen Ecosystem

- Industry with large H2 demand
- World class automotive cluster
- Largest port of Scandinavia
- 33% of Sweden's business R&D expenditure
