

OASIS

*Offshore Accelerator for System
Integration and Storage*

**INNOVATIVE SOLUTIONS WITHIN ENERGY STORAGE?
WE SUPPORT YOU IN ENTERING NEW MARKETS**

VALUE FROM PARTICIPATING

- Expert guidance in technology development, commercialization and sustainable design
- Insight into market potential and industry needs
- Door openers to new markets through partners in seven European countries
- Access to a strong network of industry partners

Through OASIS, small and medium sized companies receive knowledge, tools and support to overcome entry barriers and strengthen their position in their prospect markets.

IS YOUR COMPANY A GOOD FIT?

The answer is yes if you are a company that solves challenges within energy storage, port infrastructure, hydrogen, digitalization or system integration.

”

We had an awakening to how appropriate our technology is for the needs in central Europe. OASIS facilitated meetings and a tour of the Port of Amsterdam, which helped us understand how we could deliver value to them.

*Bjørn Bjerke,
CEO Cyan Energy*
